CAREER OBJECTIVE

To secure a great position in a company where I can use my skills and abilities to make a contribution to the organization.

PROJECTS

► SAFETY GUARD FOR BLIND STICK

2022

The primary goal of this project is to develop a technological solution that enhances the safety and navigation capabilities of a blind person using a walking stick. The Safety Guard for Blind Stick aims to detect obstacles, provide real-time feedback, and improve the overall mobility and safety of visually impaired individuals.

► SMART AGRICULTURE FIELD MONITORING & CONTROLLING BY USING IOT

2023

The Smart Agriculture Field Monitoring and Controlling System using IoT is a pioneering solution to modernize agriculture, making it more efficient and sustainable. By leveraging IoT technologies, farmers can enhance productivity while minimizing resource usage, contributing to the overall advancement of smart farming practices.
